TO: All Hospital Emergency Management Contacts  
FROM: Florida Hospital Association  
SUBJECT: Deadline Extended for CARES Act Funding Data Request  
DATE: April 23, 2020  

The American Hospital Association is reporting that the Department of Health and Human Services (HHS) is extending the deadline for hospitals to submit data to help inform its targeted distribution of funds to hospitals and other facilities particularly burdened by COVID-19. The data are now due by Saturday, April 25 at 12 p.m. PST.

On April 21, the U.S. Department of Health and Human Services (HHS) announced it will make targeted CARES Act distributions to hospitals and other facilities significantly impacted by COVID-19 response efforts. The CARES Act appropriated $100 billion to establish a Provider Relief Fund.

HHS asked all hospitals to submit certain data to help inform how it will distribute funding. These data include:

- Medicare Tax Identification Number (TIN)
- Total number of intensive care unit (ICU) beds (as of April 10, 2020)
- Total number of admissions with a COVID-19 diagnosis (from Jan. 1, 2020 to April 10, 2020)
- National Provider Identifier (NPI)

Hospitals must submit these data by Saturday, April 25 at 12 p.m. PST via the authentication portal established by an HHS vendor, TeleTracking, to be eligible to receive payments. However, doing so is not a guarantee of eligibility for any amount.

This request is a ONE-TIME data submission and is separate from AHCA’s current emergency status system data reporting requirements.

More details on data submission are available here.

Contact the FHA Incident Command Team with any questions.
