Diligent Consulting
Mobility program tools

An assortment of mobility solution tools

…with people in mind
Each Diligent® Consulting Mobility program includes an assortment of tools specifically designed for safe patient handling and mobilization. Based on the program assessment, the following tools may be included within each Diligent program.

### Lateral Transfer and Repositioning

- **MaxiSlide® and MaxiTube®** – friction-reducing sheets and tubes that minimize shearing forces during bed boosting, repositioning and lateral transfers
  - Radio-translucent

- **AirPal and Maxi Air™** – air-assisted mattress solutions intended for lateral transfers
  - Accommodates up to 1,200 lbs
  - Minimizes friction and shearing forces during lateral patient transfers

### Other Tasks

- **Seba™ – supine to edge of bed aid**
  - Accommodates up to 400 lbs
  - Enables safe and comfortable movement from supine to seated position

- **WheelChair Mover**
  - Power-assist wheelchair mover that allows for safe, smooth transport over long distances, ramps and carpet

- **Easy-slides – stocking aids**
  - Low friction aids that eliminate strain and wasted time when applying compression stockings

---

**People. Products. Processes.**

Diligent’s Mobility platform is an evidence-based program that focuses on properly utilizing task-specific equipment and procedures to minimize injuries. By implementing the right equipment and education, your facility can positively affect instances of preventable harm.
