

Mission to Care. Vision to Lead.

Mary Mayhew is the president and CEO of the Florida Hospital Association, the leading voice and association for hospitals in the State of Florida.

Mayhew's more than 30-year career spans public and private sector roles, and combines experience and expertise in government relations, executive leadership, regulatory oversight, public affairs, and public policy. Her proven history of driving accountability around integrated care models, addressing social determinants of health, and navigating through an unprecedented global pandemic has made her a renowned leader in health care policy, innovation and advocacy.

Prior to joining FHA, Mayhew led the state's Agency for Health Care Administration under Governor Ron DeSantis. During her tenure, she not only was instrumental in leading the state's response to the COVID-19 pandemic, but also spearheaded a number of initiatives to support increased accountability for improved healthcare outcomes for the more than 4 million Medicaid enrollees and to promote integrated care coordination.

Mayhew joined AHCA from the U.S. Department of Health and Human Services where she served as Deputy Administrator and Director of the Center for Medicaid and CHIP Services, overseeing the more than \$375 billion Medicaid program.

In addition, Mayhew also served for more than six years as the commissioner of the Maine Department of Health and Human Services. During this time, she advanced comprehensive health homes, Medicaid Accountable Community Organizations, integrated behavioral health homes, and efforts to improve access to substance use disorder treatment in primary care practice settings. Promoting high-quality behavioral health services still remains a priority for Mayhew today.

Her private sector roles include 11 years with the Maine Hospital Association as vice president of government relations where she advocated for policies that supported hospitals and the patients and communities they serve. Mayhew also was a partner in the public affairs firm of Hawkes & Mayhew, based in Augusta, Maine, and managed state government relations for the Equifax Corporation in Atlanta, Georgia.

Mayhew's career in public service and advocacy started early. At 17, she moved to Washington, D.C. to become a Congressional page and finish high school. After college, she served as the legislative assistant in Washington, D.C. for Arkansas Representative William Alexander's Washington, D.C. office.

Mayhew is a native of Pittsfield, Maine and a graduate of the University of Arkansas with a bachelor's degree in political science.
